EDUCATION

Florida State University, Tallahassee, FL

August 2020 - Present

Bachelor of Science in Computer Science (Expected graduation May 2024)

GPA: 3.53 / 4.0

GitHub: <https://github.com/sophiakeezel>

Honors and Awards: Florida Bright Futures Academic Scholar, Dean's List of the College of Arts and Sciences

TECHNICAL SKILLS

- **Programming Languages:** C++, C, C#, UNIX, Python, Java, JavaScript, HTML, CSS
- Github, Visual Studio Code, Visual Studio

PROJECTS

FAT32 File System

April 2023

- Implementation of a simple, user-space, shell-like utility that is capable of interpreting a FAT32 file system image in C.
- Functionality includes taking an image path as an argument and reading and writing to the file directory according to the different commands.

Shell User Interface

February 2023

- Implementation of a Shell User Interface in C.
- Functionality includes searching a \$PATH environment variable, user-input parsing and verification, input/output redirection, piping, background processing, and tilde expansion.

Learning Management System (LMS)

January 2023 - April 2023

- A Learning Management System console application that can be converted into a Universal Windows Platform desktop application using C# and .NET MAUI.
- Developed an app that allows users to create both a student and instructor view. Within the student view, users can register, view information such as assignments and announcements, and drop classes. Student view also has the ability to submit assignments for classes, and view student grades and GPA.
- The instructor view functionality allows users to view student enrollments, create classes, and create and remove assignments, modules, enrollments, and grades for each submission.

WORK HISTORY

Knup Solutions LLC, Orlando, FL

November 2022 - April 2023

Editor

- Edit web content articles related to sports, entertainment, and news.
- Responsible for Search Engine Optimization (SEO) of content.
